# PLEASE SUPPORT US!

Bookwagen provides free educational books for children and their parents. We make them – Vladimir and Irina, publishers from Kyiv. After the beginning of the full-scale war in Ukraine, we decided to continue doing what we love to do in a new format. We are now creating e-books and distributing them online in hopes of your support.

Our goal is to make lots of quality free illustrated books so that any child can learn about the world around them with interest, regardless of their parents' abilities.

Producing quality books takes a lot of time and money, and these books could not happen without your support. We are grateful for any amount you can donate towards preparing the books. As a token of our appreciation, we will send a personalized sponsorship certificate to you by email or feature you in a book you are contributing to.
